

Food's Water Footprint: Research Cards

Instructions

Make one copy of this sheet and cut out the cards. Then divide the class into four groups and give each group one card to research.

<p>Lessons for Understanding Our Water Footprint</p>  <p>RESEARCH TOPIC: Food and Agriculture's Big Water Footprint</p> <p>© 2019 GRACE Communications Foundation.</p>	<p>A good resource to start with is: https://www.watercalculator.org/water-use/#food</p>
<p>Lessons for Understanding Our Water Footprint</p>  <p>RESEARCH TOPIC: Blue, Green, and Grey Water Footprints and Agriculture</p> <p>© 2019 GRACE Communications Foundation.</p>	<p>A good resource to start with is: https://www.watercalculator.org/water-use/#food</p>
<p>Lessons for Understanding Our Water Footprint</p>  <p>RESEARCH TOPIC: Food, Portion Size, Water Footprints, and Sustainable Eating</p> <p>© 2019 GRACE Communications Foundation.</p>	<p>A good resource to start with is: https://www.watercalculator.org/water-use/#food</p>
<p>Lessons for Understanding Our Water Footprint</p>  <p>RESEARCH TOPIC: How Sustainable Farming Can Reduce Water Footprints</p> <p>© 2019 GRACE Communications Foundation.</p>	<p>A good resource to start with is: https://www.watercalculator.org/water-use/#food</p>
